Was the event promoted on some other channels except Social Media (newspapers, TV, web pages, etc.)?

LEAPin Prishtina 2020, Aftermovie –

<https://www.facebook.com/LDA.BALKAN/videos/302314604450348/>

A. Audience - what did audience say, what could've been done differently, what was done good?

From the audience we received only kind words and moral support. According to them, everything went well, both from the structural side of the organization of the event and the guests, where through them their success stories were displayed. The audience has been our main driver for us to continue even more powerfully with events and events.

B. Sponsors and partners – what did sponsors and partners say, what could've been done differently, were their expectations satisfied?

The sponsors expressed their satisfaction with the organization and stated that they felt happy that they supported this project for our young people. The part you have most liked by our sponsors has the dynamics of the development of the conference that has kept the active audience on the go and promoting the logo that we have made for them on our site, posters, main banners (3.5m- 2.5m), as well as participant agendas names and logos of copywriters were extremely clear and legible.

Kalaja Epox, Frutex, etc., has supported us for the second time since they were delighted with the cooperation we had last year.

Also, Ricoh Ricoh collaborates for the past three years, providing 100 certificates for guest vip, speakers, sponsors, and participants, who expressed their satisfaction at organizing the conference.

C. Speakers - what did sponsors and partners say, what could've been done differently, were their expectations satisfied?

The speakers were very pleased with the event we organized, negative comments had no place on their part as moral support was not lacking even for a moment. Our conference was an inspiration and space for them, because through their stories they inspired young people, which has not happened before.

Sponsors, our key help because without them this event would not have taken place, their financial and material support is not lacking this time either. The only positive criticism was the frequent occurrence of events such as the LEAP summit.

Organization Team experience - what worked and what did not work good?

Positive	Negative
Super event;	"Once the idea was good and the logistics are complete and changed. Applications were also opened early, but due to the pandemic situation we canceled the number of participants leaving the speakers and the constituent and organizing staff."
Good co-ordination and good management by the staff;	This year was held with high professionalism and organized staff. Both from the technical and organizational aspects, the conference achieved the necessary satisfaction that we worked and waited for it
Topics covered by foliage, very good;	Registration started early, 30 minutes before the event, participants felt comfortable and networked with others.
Great;	
Reaching too much;	
Multi-Benefit Conference;	
Mostly the event has been wonderful;	
Seems fine;	
"Many speeches have been very motivating, and I would like to think with the exception of some that success has come from the fate or the amount of money that did not seem to be a reasonable deal with many of the young people";	
The event in general was very good;	
Unforgettable moment;	

Everything was very good	
--------------------------	--

What is your own feedback on organizing LEAPin, your thoughts etc., your experience with your handler?

I am very happy that we have the opportunity to cooperate this year and jointly realize an event that will be remembered long. I am delighted with the cooperation we had especially with fast email communication.

I also asked the organizers in Zagreb to publish the "LEAPin" button on the LEAPsummit.com site because we needed to be more compelling to potential sponsors, but that did not happen.

I also wanted to replace the old photo and change the date for LEAP Prishtina, for the <https://leapsummit.com/leapin/> link, but this did not happen either.

Thank you for believing this year too in the organization of LEAP Prishtina 2020. Along with my team, we are also very helpful to cooperate in the future to bring something so magnificent to our country.

With this report, following documents should be attached:

1. List of the participants together with their phone number;
2. Promotional and other documents;
3. Final budget plan in Excel format;
4. Link to the photos/videos from the event:

With this report, I **Qëndrim Hoxha**, representative of the organization Leadership Development Association Balkan, branch in Kosovo, confirm that all the data presented in this report are correct.
